-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1 and 7-8, drawn to a Cu-Zn alloy containing diffusion layer.

Group II, claim(s) 2 and 17, drawn to a Fe-Cr alloy containing diffusion layer and method of production thereof.

Group III, claim(s) 3 and 18, drawn to a Ti alloy containing diffusion layer and method of production thereof.

Group IV, claim(s) 4, drawn to a Cu-Ni alloy containing diffusion layer.

Group V, claim(s) 9 and 11-16, drawn to a method of producing a metal containing diffusion layer including application of a reducing agent.

Group VI, claim(s) 19-23, drawn to a method of producing a metal material containing a diffusion layer including application of a seeding agent.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

- The special technical feature for each group is not commonly shared.

In particular, the special technical feature of Group I is a Cu-Zn alloy not commonly shared by the other groups.

The special technical feature of Group II is a Fe-Cr alloy not commonly shared by the other groups.

The special technical feature of Group III is a Ti alloy not commonly shared by the other groups.

The special technical feature of Group IV is a Cu-Ni alloy not commonly shared by the other groups.

The special technical feature of Group V is a method of producing a metal containing diffusion layer including application of a reducing agent not commonly shared by the other groups.

The special technical feature of Group VI is a method of producing a metal material containing a diffusion layer including application of a seeding agent not commonly shared by the other groups.

Therefore, the inventions or groups of inventions lack unity as they lack the same or corresponding special technical features.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does

not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to AARON S. AUSTIN whose telephone number is (571)272-8935. The examiner can normally be reached on Monday-Friday: 7:30 AM to 4:00 PM.
